## Safety Vacuum Tube Holder

**SampLok<sup>®</sup>** is a multi sample tube holder for blood sample collection. **SampLok<sup>®</sup>** is used to collect blood samples into vacuum test tubes and long neck culture bottles.

### Double Safety

**SampLok<sup>®</sup>** has two features to safeguard against accidental needlesticks:

- Safety hinged lid closes off the sampling needle inside the holder
- Full length tube holder barrel reduces potential exposure to the sampling needle

**SampLok<sup>®</sup>** is constructed of translucent material, thereby providing visualization during sample collection.

### Multiple Versions

Multiple versions of **SampLok<sup>®</sup>** are available:

- Non-sterile, bulk packaged tube barrel holder for routine blood sample collections
- With pre-attached luer, sterile individually packaged, for ready to use convenience or when a sterile set up is required
- With or without a hinged safety lid

All versions easily attach to wing needle collection sets.
